Ms Marilou van Golstein Brouwers - Member  
Ms Parveen Mahmud - Member  
Dr Debapriya Bhattacharya - Member  
Ms Victoria Sekitoleko - Member  
Mr Gregory Chen - Member

### **Objective**

#### **Statutory objective of the institution. What does the institution want to achieve?**

The purpose of the foundation is to support charitable causes and welfare work in any country in the world, exclusively on a non-profit basis, and to do all other things that contribute to or are beneficial to the achievement of the aforementioned purpose.

### **Outline policy plan**

BRAC International is a leading non-profit organisation with a mission to empower people and communities in situations of poverty, illiteracy, disease, and social injustice. Our approach is grounded in the conviction that people living in vulnerable situations can be agents of change if they are empowered with the tools, skills, and hope they need to change their lives. We design proven, scalable solutions that equip people with the support and confidence they need to achieve their potential. BRAC's institutional expertise on successfully implemented programmes is applied across 10 countries, touching the lives of over 130 million people, where our models are adapted according to the country's context.

BRAC International was set up in 2009 as a non-profit foundation in the Netherlands to govern and manage all BRAC Country Offices. In each of the countries BRAC International operates in, the entities are legally registered with relevant authorities in compliance with all applicable legal and regulatory requirements. BRAC's institutional expertise on successfully implemented programmes is applied in countries where our models are either replicated or adapted according to the country context. Together, we help people realise their potential and create opportunities through our multi-stakeholder collaboration.

Stichting BRAC International's main income is donor grants received for implementation of various social development Programmes. It normally raises its fund through discussion with various donors and stakeholders. It also follows a competitive process where it submits its pre-proposal to multinational donor organisations and gets selected based on merit.

Each donor grant received at Stichting BRAC International is spent for programme implementation, tracked and reported to the donors on a periodic basis.

Donor grants received are initially recognised as grant received in advance at fair value and recorded as liabilities. When the grant relates to an expense item, it is recognised as grant income over the period necessary to match the grant on a systematic basis to the costs that it is intended to compensate.

Stichting BRAC International does not invest donor grants to investment assets (e.g., savings account, investment) unless it is specified in the grant contract. Donor funds are normally kept in non-interest-bearing current accounts.

Stichting's BRAC International's own resources are invested following an investment management policy. [Click here for the policy.](#)

The policy plans are described in the Audited financial report, Page 6-27. [Click here for BRAC's Annual Reports.](#)

## **Remuneration**

## **policy**

Members of the Supervisory Board do not receive compensation for their work. The Foundation only provides an honorarium of USD 200 (two hundred) to members for attending Board and Board committee meetings
